outdoor furniture

ABOUT US

As Garpim, we center durability, functionality, and a sustainable production approach in outdoor furniture manufacturing. At our facilities located in the Kayseri Mimarsinan Organized Industrial Zone, we design and produce HDPE (High Density Polyethylene) products specifically developed for outdoor use. Across all our collections, we combine long-lasting usability, timeless design, and environmentally conscious production principles.

Thanks to the HDPE structure that offers high resistance against sun, moisture, and harsh weather conditions, we provide reliable and enduring solutions for outdoor spaces.

With the pride of being Turkey's first HDPE furniture manufacturer, we continue to produce contemporary and sustainable products that add value to both residential and commercial environments.

WHY GARPİM FURNITURE?

Garpim Furniture brings aesthetics, durability, and functionality together in a single line through products specifically developed for outdoor use.

Thanks to the high performance of HDPE material, we offer maintenance-free, long-lasting solutions that adapt to all seasons.

Timelessness takes priority in our design approach, while sustainability stands at the core of our production philosophy. With products suitable for both residential use and commercial projects, we deliver reliable and lasting solutions for outdoor spaces.

PROFILE FEATURES

The HDPE material used in Garpim Furniture products offers a special structure that provides high resistance against outdoor conditions.

This structure resists UV rays, moisture, temperature changes, and physical impacts, allowing the products to preserve their form and surface quality for many years.

HDPE profiles minimize the risk of fading, cracking, and deformation, ensuring safe use both aesthetically and technically.

Thus, Garpim products offer sustainable, durable, and low-maintenance solutions suitable for intensive use.

MODULAR PRODUCT

Garpim Furniture collections are designed modularly to adapt to different spaces and usage needs.

Thanks to their combinable and reconfigurable structures, the products offer flexible use across various environments.

This modular approach allows users to freely organize their spaces, while enabling scalable and sustainable solutions for commercial projects.

Garpim's modular product philosophy reflects a contemporary design approach that balances functionality with aesthetics.

Aden Collection

Coffee Table

The Aden Collection coffee table model offers a balanced and calm unity in living spaces. Complementing seating elements in a harmonious way, the coffee table completes the layout in a natural flow. With its clean lines and elegant details, it brings a timeless and modern appearance to living spaces. Thanks to its HDPE structure, the model provides long-lasting and safe usage. Aden Collection reflects a design approach empowered by simplicity.

Aden

COLLECTION

Aden is designed to make outdoor living more enjoyable, more aesthetic, and longer-lasting. Its HDPE frame structure offers superior resistance against UV rays, rain, and temperature, and thanks to its maintenance-free structure, it protects its fresh look throughout all seasons.

Combined with fabric color options, the modern color chart gives Aden both a spacious and customizable character. With its wide seating area and soft cushions, its minimalist lines easily adapt to any space — from garden verandas to poolside terraces.

Whether you create an energetic and lively atmosphere with vibrant colors or a calm and serene corner with neutral tones...

Aden designs a pleasant living space that adds comfort and style to your outdoor areas.

CORNER SEATING SET

Dining Sets

The most enjoyable way to gather outdoors.

From gardens to terraces and cozy corners, dining sets bring comfort and aesthetics to every moment — from daily use to long conversations.

With their timeless design, durable material structure, and adaptability to different usage scenarios, they accompany outdoor gatherings with ease.

Meva

OVAL LEG DINING SET

A strong dining set that brings comfort and aesthetics together in outdoor living. Inspired by the form of the classic Adirondack, its wide backrest and ergonomic seating offer long-lasting comfort.

Thanks to its HDPE frame structure, it shows high resistance against all weather conditions — from sunlight and rain to humidity and cold. Its maintenance-free surface retains its appearance season after season, while its durable structure and color options add refined elegance to gardens.

Meva brings a warm and inviting atmosphere to outdoor gatherings — whether it's daily family use or enjoyable conversations with guests.

Adirondack

The Adirondack Collection brings a timeless design approach to modern outdoor living. Its wide seating structure, balanced back angle, and characteristic form combine comfort with a natural stance.

Adirondack

CLASSIC FOLDABLE ADIRONDACK

With its red color, the classic foldable Adirondack adds a vibrant and strong character to outdoor spaces. This color, which emphasizes the traditional form, turns the product into a natural focal point wherever it is placed. Its foldable structure provides ease of use without compromising its form or balanced stance. The wide seating area and ergonomic back angle combine comfort with a simple aesthetic. The HDPE body preserves its color vibrancy for a long time and offers high resistance against sun, humidity, and outdoor conditions. This model is designed for those who want to reinterpret a classic design with an energetic expression.
